## Press Release

### National and Kapodistrian University of Athens | Supplementary Distance Education Programme (E-Learning) | Online Courses in English

#### **Made in Greece... Addressed to the world**

E-Learning Courses from the Oldest University in Greece

[www.elearninguoa.org](http://www.elearninguoa.org)

**Rector Message, Prof. Meletios-Athanasios Dimopoulos** <https://www.youtube.com/watch?v=Mueg1xIhmM>

In a globalized digital era, **National and Kapodistrian University of Athens (NKUA)**, Greece's biggest and oldest university, presents a new initiative on the field of online asynchronous learning aiming to break the boundaries of time and place and connect students from all around the globe with the core of Greek culture and the country's modern academic excellence.

Widely recognized internationally, always on the top rankings, NKUA addresses the international audience with distance learning courses, sharing with the world important insights and knowledge on fields of its academic expertise such as Classics and cutting edge research activity.

Be part of the **Greek cultural heritage and contemporary identity** by delving into an educational experience that suggests Greek roots, internationally recognized as the fundamentals of Modern Western Civilization. Follow the top academic faculty of National and Kapodistrian University of Athens on acquiring knowledge and get **interdisciplinary** training on **subjects of innovative science**.

#### **E-Learning University of Athens**

Following its long tradition in the development and distribution of e-learning programmes – currently offering more than 250 programmes in Greek with more than 45,000 graduates - the University of Athens and its Supplementary Distance Education Programme (E-Learning) of the Center of Continuing Education and Lifelong Learning launch an interactive platform that gives users a unique learning experience grounded in new technologies and the use of interactive tools.

Drawing on the expertise of senior academics and experts at the University of Athens our new initiative introduces English taught e-learning courses in a variety of fields.

#### **Our Asynchronous Online Courses**

Either interested in **advancing your personal or professional skills and competences**, a proper course has been developed to fit your needs.

A variety of courses in English has already been available covering the following main academic areas:

## eLearning

- [Arts | Culture](#) ([Greek Drama](#), [Archaeology](#), [Greek Philosophy](#), [Mediterranean food and diet](#) etc.)
- [Greek Language](#) ([Modern Greek](#), [Writing in Greek](#) etc.)
- [Business | Economics](#)
- [Coaching](#)
- [Environment | Architecture](#)
- [Intangible Cultural Heritage](#)
- [Nanomedicine | Nanotechnology](#)
- [Nutrition & Health](#)

With many more under development.

Ultimate aim of our courses is meeting the detected educational needs and the provision of complementary necessary qualifications in people that wish to amplify their knowledge, gain new professional skills or enhance their personal development.

### **Methodology- Certificate**

Our online courses combine innovative teaching techniques and interaction with either full personal academic tutorship or community academic support, through a friendly online educational platform. All services are provided through LMS Moodle, a trusted worldwide learning platform designed to provide educators, administrators and learners with a single robust and secure system that creates a **personalized learning environment**.

Thus, our courses involve full educational support as well as an ongoing personalized communication between the tutors and the trainees through an asynchronous model of education. This asynchronous model offers learners the flexibility to study on their own pace from anywhere around the world.

Each course is certified by NKUA and has been developed in collaboration with researchers and academics as well as faculty from different schools and departments. Our goal is the constant renewal and enrichment of the existing material and the development of new programmes in interdisciplinary subjects - bringing together both students and experts from different fields.

Successful completion leads to a Certificate of Training or a Certificate of Specialized Training.

The first step has already been taken. E-Learning UoA goes international and invites the world to discover the full range of the available elearning programmes. Enjoy a journey in ancient and modern Greek culture or enhance your professional skills with one of our online courses.
